Update on New Security System

This summer will bring the activation of the church's new security system. We thank you for your willingness to help us make our church as secure as possible.

If you currently do not have a key to access the building, this change will not affect you. If you need access during the hours the church is open, you will continue to use Door 4 and press the silver button on the device pictured here. We will be able to see you and communicate with you as well as to let you in.

Ministry leaders who have a key will exchange it for a key fob which will be the new way for you to unlock Door 4.

Important: Your key fob will open the door, HOWEVER, if you are entering outside of business hours, you will need to disarm the alarm using the distinct 4 digit code you will be assigned. You will be trained on how to use your fob and how to disarm the alarm BEFORE the system is implemented.

The goal is to implement this security system as soon as possible with documentation

and training being made available before implementation.

Thanks again for your willingness to adapt to this change.
